

WHITE PEARL GYPSUM-FIBERGLASS TAPE

This self-adhesive fiberglass tape can be used to reinforce corners and drywall joints. It is made from a fiberglass mesh that is thin and light yet extremely vigorous. Smart fiberglass drywall tape resists shrinkage, shredding, stretching and deformation. It is a shining star when it comes to prevent joints from cracking.

Application:-

Suitable for covering joints between drywall panels quick and easy application with no extra need of bedding or tapping coat of the jointing material. Primarily recommended for patching holes, cracks in drywall and plaster interiors.

Features:-

- Color: White
 - Smooth and no dilapidation
 - Good insulating material

Uses of Fiber Glass tape

- Winding or wrapping electrical motors, communication cable, transformer, and electrical equipment
- Good basic material for FRP Products

Specifications:

- Lengths: 90 meters
- Width: 50 mm
